Summary/conclusion

1. Sufficient truth about God is available so as to render man responsible for his condition.
2. This truth about God has been designed to lead men on to more truth, if they would seek it.
3. The truth that is known is general revelation. It is the “Bible” for the man without the Bible.
4. This truth has been rejected and renders man as “apostate.” Idolatry is apostasy.
5. Therefore, man is condemned because he does not turn to creation’s Maker. He does not turn to the power by which all the colossal force of creation is held together.
